MT. AIRY, CINCINNATI, OHIO

February 1, 1934.

TO THE TRADE:- (IF YOU HAVE ANY OF OUR SHIPPING CANS)
(PLEASE FAVOR US BY RETURNING AT ONCE!!)

Present weather conditions seem to point to an early Spring in many localities. Already requests for Pool Fish are coming in from dealers who realize the saving in Express charges which can be made by getting in the larger fish while weather is still cold.

As soon as the water warms up to around 65 degrees the large fish want to spawn and that makes it harder to ship them. Consequently only half as many can be safely shipped in the same size can as now.

If you have any tanks in your cellar to use for storage purposes, put a small spray of running water into them to run continuously, cover the tanks with wire if bothered by rats or cats, and you will be able to carry a nice surplus supply of a few hundred larger fish. Or if you have an outdoor pool you can use that to advantage.

Our new edition of "The Goldfish Pool" - our Spring Catalogue for 1934; will be mailed the latter part of February. We offer you over 100 choice items for pools at money making prices. Don't order pool supplies elsewhere until you get our book. Meanwhile we quote for this month of February some specials in large fish at prices which will not be available after the beginning of the Spring rush. Hence you will save money by ordering now.

TERMS: Net cash with order. Live delivery guaranteed on all perishable items except Tropical Fish shipped during cold weather. Prices F.O.B. Cincinnati, Ohio, subject to change without notice. NOTE: Please return our shipping cans including any you now have on hand!
